

The page features three blue circles of varying sizes and two thin blue lines. One line starts from the top left and extends diagonally towards the middle right, passing near the top two circles. Another line starts from the middle right and extends diagonally towards the bottom right, passing near the bottom circle. The circles have a 3D effect with a light blue center and a darker blue outer ring.

# Time Entry App Document

[Type the document subtitle]

This project consists of the development of the web application to display the time entry of project task. In this project. We use the date and time module. For the backend python programming is used which has lots built in function and for the front end HTML, CSS, Javascript is used. Application development on the Django framework.
